

USVI Energy Efficiency Road Map

Energy Efficiency Base Case

Energy Efficiency

Goal

	Assumed Ultimate Penetration	Assumed Ultimate Reduction
EE Use		
Residential	25%	25%
Commercial	25%	25%
Government	75%	25%
Large C&I	25%	25%
EE Water		
Government	75%	25%
Large C&I	25%	25%

Energy Efficiency

V.I. Government ESPC Model

MESA

- Master Energy Services Agreement - Indefinite Delivery / Indefinite Quantity Contract to set general guidelines

LOA

- Letter of Agreement - Defines buildings and payment conditions for investment grade audit and proposal submission

TOS

- Task Order Schedule - Includes all the details regarding the work and payment schedules

Energy Efficiency

List of Public Schools for First Round of TOS, 2011

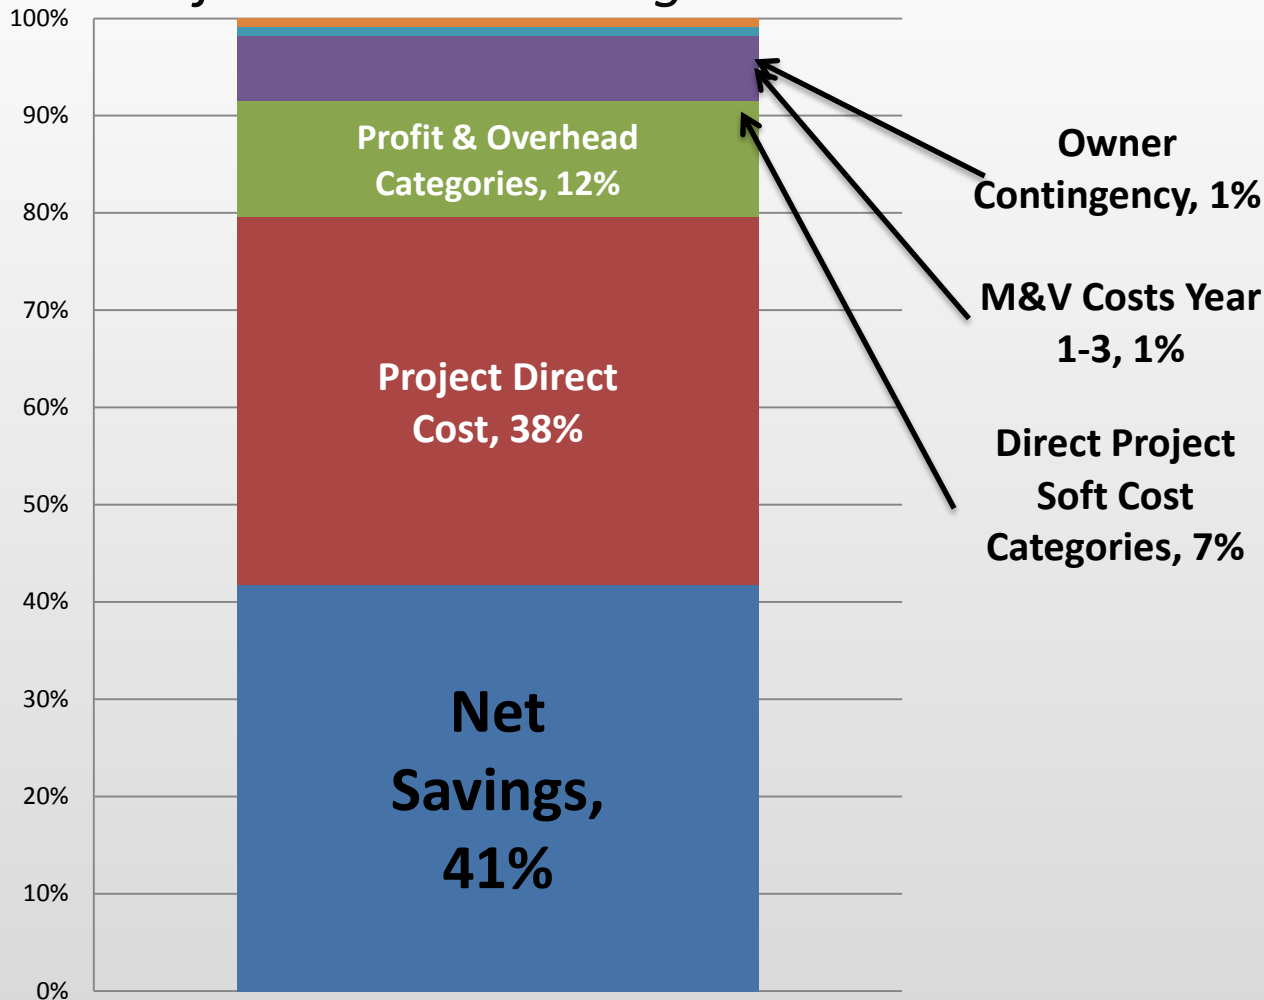

The first round of energy conservation measures started being installed in the following public schools on March 28, 2011:

- Lockhart Elementary School, St Thomas
- Bowsky Elementary School, (Peace Corp) St Thomas
- Bertha C. Bochulte Junior High School, St Thomas
- Charlotte Amalie High School, St Thomas
- Ivanna Eudora Ken High School, St Thomas
- Addelita Cancryn Junior High School, St Thomas
- Benjamin Oliver Elementary School, St Thomas
- Lew Muckle Elementary School, St Croix
- Elena L. Christian Junior High School, St Croix
- St Croix Central High School, St Croix
- John H Woodson Junior High School, St Croix

Energy Efficiency

DoE Project Costs & Savings

Energy Efficiency

Workforce Development

The workforce categories include the following:

Development of applicable education for "green collar jobs" and energy managers

Architecture and engineering of energy efficient buildings

Energy auditor

Crew leader

Retrofit installer/technician

Quality control inspector

Building energy code enforcement

Thank You!
